## INTRODUCTION

**Smart Volt Electrical Contracting LLC**, established in 2018 as the solar division of **World Wide Group**, aligns with UAE's Vision 2021 to generate 27% of its energy from clean sources and supports DEWA's Shams initiative. World Wide Group, founded in 2005, is a diversified group of companies offering services in the MEP, civil construction, transportation, logistics, and trading sectors. Our professionally managed team of skilled and experienced engineers and technicians provides solar PV solutions for commercial, residential, and industrial premises. We excel in working within occupied and preoccupied premises, ensuring timely project completion using proven methods. We emphasize quality workmanship and supervision, backed by extensive experience in PV plant installations. We guarantee competitive pricing and timely execution of services, adhering to safety and quality standards as per project requirements and client specifications. Collectively, Smart Volt has successfully commissioned over 80 MW of solar plants across the UAE.

## OUR SERVICES

At Smart Volt Electrical Contracting LLC, we offer comprehensive solar services tailored to meet the needs of our clients. Our process begins with a detailed consultation to understand the project requirements. We then conduct a site assessment to determine the best solar solutions for the premises. Our skilled team are fully qualified to design, install, and commissions solar PV systems, ensuring seamless integration with existing infrastructure. Our engineering team will provide ongoing maintenance and support to ensure optimal performance and efficiency. Our commitment to quality and client satisfaction ensures that your transition to solar energy is smooth and beneficial.

### **Solar Engineering, Procurement and Construction (EPC)**

Smart Volt has in house end-to-end capability to build a customized solar plant. We are constantly finding cost effective solar solution without compromising quality and standards.

### **Solar Installation and Commissioning (I&C)**

Our team are seasoned experts with experience in installation and commissioning projects involving every type of scenario. Our technicians are well equipped with tools and safety equipment to deliver high quality workmanship

### **Solar Operation and Maintenance (O&M)**

We have a dedicated operations and maintenance team which can be deployed to managed our client's solar assets. We are experts in cleaning, preventive maintenance and corrective maintenance, resulting in optimal power generation and maximum plant uptime.

## MISSION

To become a credible and leading solar contractor in the UAE by delivering successful projects in a safe, on time and quality-oriented manner; thus, emerging as a preferred engineering and construction solutions provider for our clients.

## VISION

Our mission is to continuously deliver high quality, cost effective and innovative services to meet our client needs. We are committed to client's satisfaction and the teamwork of our dedicated employees are focused on excellence through performance.

## QUALITY POLICY

- I. Quality is the foundation of Smart Volt and it is fully embedded in our way of working.
- II. We are committed to provide high quality works and services that enhance productivity to create satisfaction to our valuable clients meeting their requirements.
- III. Directors and Managers have the responsibility of ensuring that the policy is communicated and understood by all personnel engaged in tasks that can influence quality matters that they are aware of their obligations under the standards and are provided with adequate, suitable resources.
- IV. Smart Volt's Quality Management System strives to continually improve:
  - Customer satisfaction and loyalty
  - Strengthen relationships with suppliers
  - Quality of output from our processes

## ENVIRONMENT, HEALTH & SAFETY POLICY

Smart Volt is committed to ensure the Health and Safety of its employees, and the physical environment in which the company activities are carried out. The purpose of the Health and Safety policies and procedures is to guide and direct all employees to work safely and prevent injury, to themselves and others. Our workforce is encouraged to engage and comply with the following EHS aspects:

- Participate in developing, implementing, and enforcing Health and Safety policies and procedures
- Take all reasonable steps to prevent accidents for the welfare of our staffs and protection of our assets
- Comply with relevant Environmental, Health and Safety legal laws and other requirements and take necessary precautions to prevent accidents and work related illness
- Make every effort to protect the environment and prevent pollution, minimize consumption of materials, to promote reuse and recycling of wastes and adopt best practice on waste management

Our goal is to eliminate or minimize hazards that can cause accidents. It is company policy that all employees be given a copy of the policies manual and be familiar with its contents. This policy will be reviewed annually.

The Management and Staff of **SMART VOLT ELECTRICAL CONTRACTING LLC** shall ensure that the company's EHS policy is well communicated to all quarters concerned. Together we can achieve a safe and happy work environment.
